Portfolio: [nguyen_hong_tham](#)

SUMMARY

Final-year Information Technology student with hands-on experience developing backend services using NestJS, Node.js, PostgreSQL and MySQL. Built multiple e-commerce and delivery platform projects involving RESTful APIs, authentication and authorization, payment integration and database-driven business workflows. Experienced in designing relational databases, implementing secure API endpoints and integrating third-party services. Seeking a Backend Developer Internship to contribute to scalable backend systems while strengthening software engineering expertise.

PROJECTS

May Milk Tea E-commerce System

Tech: React, TypeScript, NestJS, PostgreSQL, Prisma, Socket.io, OpenAI, VNPay

Github: [project_MAY](#)

- Developed customer and admin applications supporting milk tea ordering and management workflows.
- Built RESTful APIs for authentication, products, orders and payment processing.
- Implemented Firebase OTP, JWT authentication and role-based access control mechanisms.
- Integrated VNPay payments, real-time order tracking and an AI-powered recommendation chatbot.

Vinabook

Tech: Next.js, React, TypeScript, PostgreSQL, JWT Authentication, React Query, AI Chatbot Integration

Github: github.com/nguyen-hong-tham/vina_book

- Developed backend services supporting authentication, product management and order workflows.
- Designed relational database models and implemented business logic for bookstore operations.
- Built RESTful APIs for user, product and order management functionalities.
- Implemented role-based administration features and integrated AI-powered services.

Bookept

Tech: PHP, MySQL, JavaScript, Bootstrap 5, AJAX, Apache (XAMPP)

Github: [project_bookept](#)

- Developed server-side functionalities using PHP and MySQL for e-commerce operations.
- Designed relational database schemas for products, users and order management.
- Implemented authentication, shopping cart and checkout business workflows.
- Built administration modules for managing products, customers and orders.

SKILL

Frontend: React, Next.js, TypeScript, Tailwind CSS, Redux Toolkit, React Query, React Router

Backend: Node.js, NestJS, RESTful APIs, JWT Authentication, Firebase Authentication, Appwrite

Database: PostgreSQL, MySQL, SQL Server

Core CS : Data Structures & Algorithms, Database Design, System Design (basic), OOP

Tools: Git, GitHub, Docker, Jest, GitHub Actions, Swagger, Nx

EDUCATION

Sai Gon University

Faculty: Information Technology

Current GPA : 3.03

CERTIFICATIONS

TOEIC (in progress).

VSTEP (B1).
